Somerset Pharmaceutical Needs Assessment 2025-28

A supplementary statement to the Pharmaceutical Needs Assessment (PNA) is a formal update that enables the Health and Wellbeing Board to keep its published assessment current in between full reviews. PNAs are required to reflect the adequacy of local pharmaceutical services, but as changes to provision, can occur at any time, supplementary statements provide a mechanism to record these developments in a timely and proportionate way.

We are therefore presenting this summary to highlight recent changes in pharmaceutical provision across the area, and our actions following these changes to ensure the Board has an accurate and up-to-date understanding of service availability.

The Somerset Pharmaceutical Needs Assessment (PNA) can be found at: Somerset Pharmaceutical Needs Assessment; along with any published supplementary statements.
